FEU Alabang & HCBHS INTERNATIONAL EXCHANGE

Earthquake and Music with the Application of Ipad

In this activity, we learned about earthquake-generated sounds and tried to create our own music using Suno AI. Finally, we used NFC to send music to FEU students. We all had a wonderful time enjoying the class. It was an amazing experience to learn much knowledge about earthquakes and music. Such a great time!

Paper Cutting: 春(Spring)

Filipinos don't celebrate Lunar New Year. Some of them don't even know about it. We shared some traditions related to the Lunar New Year. We also learned the Chinese character "春," which means "spring." And we did a paper-cutting activity together. It was a great way for the Filipino students to get to know more about Taiwanese culture!

Playing Rummikub (a puzzle game)

Rummikub is easy to play, but teaching the exchange students how to play in English was quite hard, especially the parts with math. Just translating the math into English took us a lot of time. It was a new and fun experience to play puzzle games with them, and we really enjoyed it!
