

HCHS X FEU Alabang

Kaohsiung Local Culture Tour 5/27-5/29

To welcome the arrival of the Filipino students, we prepared some activities to invite them to participate.

First, we introduced some popular Taiwanese snacks, such as: Science Noodle(科學麵), Senbei Rice Crackers(旺旺仙貝), etc., and make the Filipino students try them and sharing about their thoughts.

The second activity was "Guesstures". Filipino students also came to participate in the game. Guesstures is a game that does not require speaking. It allowed us to break the language barrier and have fun together.

I feel like we built friendships across nationalities while working together to play games, and I hope the Filipino students enjoyed this class.

-In class activity-

-Strolling at Pier 2-

On our way to the Pier-2 Art Center, we admired various street installations and vibrant graffiti art along the streets. It was amazing to see how creative artworks existed in every corner.

Then, we went to SunnyHills and enjoyed delicious banana cookies paired with warm Taiwanese Oolong tea or black coffee. It was a pity that the Filipino students didn't try the pineapple cake, but they still had an interesting tea-serving (奉茶) experience.

-Walking Around Lotus Pond-

We took our Filipino students to Lotus Pond in Zuoying, where the famous Dragon and Tiger Pagodas, Jiuqu Bridge, and Spring and Autumn Pavilions are located. We climbed the Dragon and Tiger Pagodas and looked out over the Zuoying District.

When we reached the fifth floor of the pagoda, our legs trembled and we felt nervous about falling. Although the weather wasn't good, we were still able to enjoy the magnificent scenery.
