

A TRIP TO MEINONG

2025
MEMORIES

A Cross-Border Agricultural Experience! Hsin Chuang High School partnered with Wenzao Ursuline University of Languages and National Sun Yat-sen University international students to embark on a cultural exchange journey at an organic farm in Meinong. Students from Japan, Vietnam, India, Sri Lanka, Argentina, and Ecuador harvested white radishes by hand, learned the art of Hakka radish pickling, and made traditional radish cakes. During their time in the fields, everyone gathered firewood to cook radish soup and shared authentic Hakka cuisine together. Students enthusiastically shared their feedback: "The complete process from harvest to cooking was the most meaningful!" and "Meeting friends from different countries and learning about Taiwanese agricultural culture." Through their connection to the land, students from diverse cultural backgrounds transcended language barriers, forged deep friendships, and embodied the core values of food and agricultural education and international exchange.

HANDS TOGETHER PROJECT

大手牽小手~與大專院校外籍生交流計畫

文藻外語大學x新莊高中x中山大學
